

turnTo

```
graph LR; A[turnTo] --> B["ca.mcgill.ecse211.odometer.OdometerData.getXYT"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is shaded gray and contains the text 'turnTo'. A blue arrow points from the right side of this box to the left side of a larger, white box on the right. This right box contains the text 'ca.mcgill.ecse211.odometer.OdometerData.getXYT'.
